Energy-efficient laser projector
for large venues

Overview

The newly designed DU7×99Z series is a most efficient WUXGA large venue projector and includes DU7099Z, DU7199Z, and DU7299Z three different levels of brightness with versatility in applications. This series offers incredibly brightness up to 9,600 lumens and supports motorized lenses, with lens positioning memory to cater for any installation requirements.

Its maintenance-free reliable operation for up to 30,000 hours with constant brightness and color uniformity by the optional IP6X sealed engine design, making this series perfect for large venues, such as auditoriums, lecture halls, sports arenas, and both rental and staging markets.

Key feature

Brightness and Color Performance

With Vivitek's latest laser technology, DU7×99Z series features high brightness up to 9,600 lumens and a high 3,000,000: 1 contrast ratio to create the most amazing picture performance.

High Efficiency

The DU7×99Z series uses the latest laser light source technology to enhance brightness, featuring the lowest power consumption and high efficiency in the market. Compared to previous projectors, this series has saved up to 45% of power consumption.

Optional Motorized Lenses & Lens Shift movement

The previous generation of models used manual lenses, the new DU7×99Z series supports eight motorized lenses and offer larger Lens Shift movement to enhance installation flexibility.

Lens Position Memory

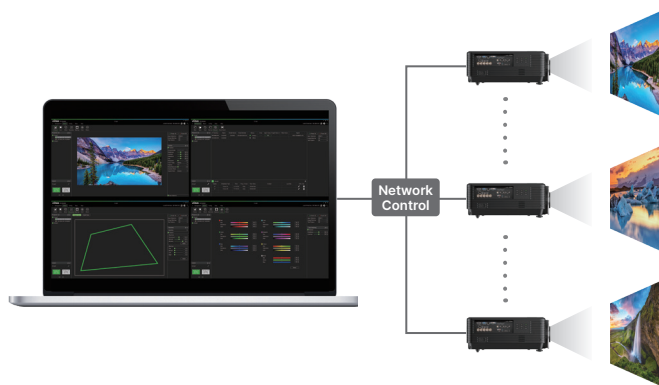

The DU7×99Z series comes with powered lens shift (horizontal/vertical) for easy adjustment and positioning flexibility. Lens Positioning Memory also offers quick recall of user-defined lens positions (lens shift) for easy setup to ensure perfectly proportioned images.

PJ-Control Tool

Vivitek's PJ Control software is a tool for controlling Vivitek projectors. It can be used to manage multiple projectors, helping users control viewing options, settings, and scheduling, and it also allows for the adjustment of display features over a network.

Constant Brightness

With built-in color sensor technology, these projectors can automatically adjust the lighting to maintain constant and stable brightness over a long period of time.

24/7 Operation

Vivitek's laser light source is good for 30,000 hours of operation in Eco Mode and support continuous 24/7 operation. It delivers high stability and reliability for commercial applications.
