NovoConnect NC-X500

An easy-to-connect wireless presentation solution

Overview

NovoConnect NC-X500 is a wireless presentation solution, allowing up to 4 users to share their screens and 64 users to connect simultaneously. Its low-latency mirroring, extended desktop functionality, and file sharing capability facilitate seamless collaboration. In addition, its cloud-based device management offers great flexibilities, such as firmware update & remote assist.

Key Features

Wireless Presentation

· Screen Mirroring: Airplay, Google Cast, & Miracast

· Windows | MacOS | Chromebook | Ubuntu

· Extended desktop

· File & video sharing

Extended screen
(serve as the secondary screen to User's laptop)

Primary screen
(User's laptop)

NovoConnect software | AirPlay | Google Cast

Screen Mirroring

Extended Desktop

4 Split Screens with FHD Resolution

· 4 split screens in 1080p resolution

· Up to 64 participants can be connected simultaneously

BYOM

BYOM (Bring Your Own Meeting) allows users to seamlessly connect their devices to in-room AV equipment (such as camera) via Wi-Fi, making meetings and presentations more convenient and productive.

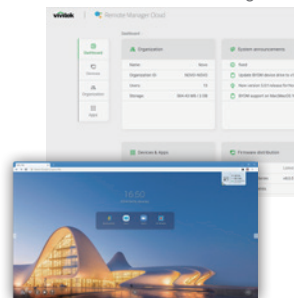

Cloud-based Device Management

· Managing devices by groups

· Firmware update

· Remote assist – view and click on the device screen in the cloud

Cloud-based device management

Dashboard, Device snapshot & Remote control

NT Live Receiver

NT Live Receiver receives screen broadcast from an "NT Live" source, such as a NovoTouch panel.

System Integration

The SysControl network-based control protocol allows NovoConnect devices to be integrated with third-party control systems, enabling remote management and control of device functions, including power on/off, volume adjustment, and more.

Product Specifications-Hardware

Model	NC-X500
Storage	Internal: 16GB
	External: MicroSD Card (Up to 32GB), USB Drive (Up to 32GB)
